### **Purpose and Background**

6. San Gabriel Valley Water Company is authorized to file by Tier 1 advice letter revised tariff schedules reflecting the adopted rates specified in Appendices A and B attached to this order, and to concurrently cancel its present schedules for such service. - II.C.2      Cost of Capital Litigation Memorandum Account (p. 10) ...  
RESOLUTION: ORA agrees to allow San Gabriel to amortize the full balance over 12 months.
  
- II.C.3      Preliminary Statements (p. 10) ... RESOLUTION: San Gabriel Agrees to revise its tariffs to add descriptions of its water and power balancing accounts, but such revisions should not be considered a condition precedent for permitting amortization of these accounts.
  
- III.E.16    Water Rights (p. 28) ... RESOLUTION: ... The parties agree that San Gabriel should be authorized to establish a Memorandum Account to record the revenue requirement related to the purchase of water rights, and so request that an ordering paragraph to this effect be included in the Commission's decision.
  
- III.I.1      Rate Design/Construction Service Tariffs (p. 36) ... ISSUE: San Gabriel seeks to modify construction service tariffs in both operating divisions to eliminate fixed charges and authorize a uniform quantity rate. ... RESOLUTION: ORA agrees with these modifications.
  
- III.I.2      Rate Design/California Alternative Rates for Water ("CARW") Program (p. 36) ... RESOLUTION: San Gabriel agrees to the ORA proposal for a uniform \$9 subsidy for all meter sizes.

- IV.I.3      Rate Design/California Alternative Rates for Water ("CARW") Program (p. 61) ... RESOLUTION: San Gabriel agrees to the ORA proposal for a uniform \$9 subsidy for all meter sizes.

## **Discussion**

For Los Angeles County division customers, the effect of these adopted rates increase the typical monthly bills of the average residential customer (5/8" x 3/4" meter and 14 Ccf) by \$8.30 or 13.7% from \$60.46 to \$68.76 as compared to rates effective September 20, 2016. Overall, test year revenue requirements will be increased by \$7,233,000 or 11.3%.

For Fontana Water Company division customers, the effect of these adopted rates increase the typical monthly bills of the average residential customer (5/8" x 3/4" meter and 19 Ccf) by \$18.71 or 27.7% from \$67.49 to \$86.21 as compared to rates effective September 20, 2016. Overall, test year revenue requirements will be increased by \$15,314,000 or 27.5%.

In addition to the above changes in base rates and CARW surcharges and surcredits, the following additional changes are made in accordance with D.17-06-008:

1. Resolution L-411A Memorandum Account: Section P1 of the Preliminary Statement is deleted.
2. Income Tax Repairs Regulations Memorandum Account: Section P2 of the Preliminary Statement is deleted.
3. Cost of Capital Litigation Memorandum Account: Section K of the Preliminary Statement is deleted. The April 2017 balances of \$58,174 for the Los Angeles County Division and \$59,563 for the Fontana Water Company Division are transferred to the Previously Authorized Balances Balancing Accounts ("PABBAs) and will be amortized through temporary, 12-month amortization rates of \$0.0048/Ccf and \$0.0041/Ccf, respectively. Note that the only additions to these accounts since the general rate case was filed are the accrual of interest on the monthly average balances.
4. Cost of Capital Interim Rates Memorandum Account: Section O2 of the Preliminary Statement is deleted. The April 2014 over-collected \$46,236.79 balance for the Los Angeles County Division and under-collected \$19,569.80 balance for the Fontana Water Company Division are transferred to the PABBAs. Note that the only additions to these accounts since the general rate case was filed are the accrual of interest on the monthly average balances.

5. Water and Power Balancing Accounts: New Sections P1 through P4 are added to the Preliminary Statement to describe the existing procedures used to compute these accounts.
6. Water Rights Memorandum Account: A new Section K is added to the Preliminary Statement to describe this newly authorized account.

**O1. Interim Rates Memorandum Account ("IRMA") for the Fontana Water Company Division.**

1. Purpose: The purpose of this memorandum account is to track the difference between the revenues billed under the interim rates and revenues that would have been billed under the rates adopted by the Commission in A. 11-07-005.
2. The interim rates shall be the currently authorized rates.
3. The effective date is July 1, 2012.
4. After the Commission issues a final decision in A. 11-07-005, San Gabriel will request by advice letter the amortization of the balance recorded in the IRMA.
5. The memorandum account will terminate when so ordered in a CPUC general rate case decision, at which time any remaining debit (undercollection) or credit (overcollection) balance will be amortized through a rate surcharge or surcredit.

*Authorization: Established pursuant to Administrative Law Judge's Ruling Granting Interim Rates, dated May 29, 2012, in A.11-07-005, and Advice Letter 416*

**P1. Water Cost Balancing Account for the Los Angeles County Division**

(T)

(D)

**1. Purpose**

(N)

The purpose of this incremental balancing account is to record each month the difference between the cost of pumped and purchased water and the adopted cost reflected in rates, so that these differences can be trued-up through rates subsequent to CPUC review and approval.

**2. Accounting Procedure**

Each month, San Gabriel will make the following entries to update the balance in this account:

- a. Revenue Component (credit entry): the applicable recorded billed sales multiplied by the sum of any base rate changes (\$/Ccf) from water cost offsets since the most recent general rate case plus any currently effective amortization rate (\$/Ccf), plus or minus any necessary revenue adjustments. The revenue component shall be reduced by the uncollectibles and franchise fees factors most recently authorized by the Commission to arrive at collected revenues.
- b. Expense Component (debit entry): the recorded quantity of pumped and purchased water (AF) multiplied by the difference between the water cost adopted in the most recent general rate case and the water cost based on the current water supply prices (\$/AF) applied to the adopted water supply mix (AF), plus or minus any necessary expense adjustments.
- c. Interest (debit or credit entry): interest shall accrue monthly by applying one-twelfth of the Federal Reserve 3-month Commercial Paper Rate - non-Financial, from Federal Reserve Statistical Release H.15 (expressed as an annual rate) to the average monthly balance.

**3. Amortizations**

San Gabriel may request amortization of this account by advice letter when the balance reaches 2% of annual revenues or at any level through a general rate case application.
