

SAN GABRIEL VALLEY WATER COMPANY

October 9, 2007

Advice Letter No. 357

U337W

TO THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

Purpose and Background

In compliance with D. 07-01-024 and General Rule 8.4.3 of General Order (GO) 96-B, San Gabriel Valley Water Company (“San Gabriel”) hereby notifies the California Public Utilities Commission of San Gabriel’s intent to continue use of its existing tariff numbering system.

Appendix A of D. 07-01-024 serves as the General Rules for GO 96-B. General Rule 8.4.3, Transitional Provisions, provides that utilities shall specify within 90 days of the effective date of these general rules whether they elect to continue the tariff sheet numbering system already utilized by the utility or whether the utility elects to conform its sheet numbering system to the requirements of General Rule 8.4.2. In the event a utility elects to continue its existing sheet numbering system, General Rule 8.4.3 specifies that the sheet numbering system must remain in compliance with the sheet numbering specifications set forth in the last effective version of GO 96-A.

Discussion

San Gabriel hereby notifies the Commission that it elects to continue the use of its existing sheet numbering system and acknowledges its existing sheet numbering system remains in compliance with the sheet numbering specifications as set forth in the last effective version of GO 96-A. Also, as directed in General Rule 8.4.3, San Gabriel will maintain its historical tariff record so that it may provide, upon written request and within a reasonable time, the text for any tariff (or portion thereof) no longer in effect.

San Gabriel’s existing sheet numbering system is described as follows:

- All tariff sheets are transmitted by an advice letter.

- San Gabriel uses a standard sequential numerical numbering system for each tariff sheet it submits to the Commission. In this system, the first sheet was designated as Cal. PUC Sheet No. 1-W, followed by Cal. PUC Sheet No. 2-W, etc.
- Each time a tariff sheet is modified and transmitted via an advice letter, the tariff sheet number is revised to the next available sequential number. This modification not only includes the reference of the new sheet number but also includes a reference to the sheet number just replaced or superseded. This cross-referencing process supports the integrity of San Gabriel's historical tariff sheets.
- A revised table of contents sheet is transmitted with each advice letter.

No cost information is required for this advice letter filing. This advice filing will not increase any rate or charge, cause the withdrawal of service, or conflict with any other schedule or rule.

Tier Designation and Effective Date

Pursuant to D.07-01-024, Water Industry Rule 7.3.1, this advice letter should be classified as Tier 1. This advice filing will become effective on October 9, 2007, the day of filing.

Responses and Protests

Anyone may respond to or protest this advice letter. A response supports the filing and may contain information that proves useful to the Commission in evaluating the advice letter. A protest objects to the advice letter in whole or in part and must set forth the specific grounds on which it is based. These grounds are:

- (3) The analysis, calculations, or data in the advice letter contain material error or omissions;

- (4) The relief requested in the advice letter is pending before the Commission in a formal proceeding;
- (5) The relief requested in the advice letter requires consideration in a formal hearing, or is otherwise inappropriate for the advice letter process; or
- (6) The relief requested in the advice letter is unjust, unreasonable, or discriminatory (provided that such a protest may not be made where it would require relitigating a prior order of the Commission.)

A protest shall provide citations or proofs where available to allow staff to properly consider the protest.
