November 26, 2014

Advice Letter No. 450

U337W

## TO THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

San Gabriel Valley Water Company ("San Gabriel") hereby requests review and approval of the following changes in tariff sheets applicable to its Los Angeles County ("LA County") division:

<u>CPUC Sheet No.</u>	<u>Title</u>	<u>Schedule No.</u>	<u>Canceling CPUC Sheet No.</u>
2370-W	General Metered Service Conservation Rates	LA-1C	2355-W
2371-W	Table of Contents (cont'd)	N/A	2357-W
2372-W	Table of Contents	N/A	2369-W

An original and four copies of this advice letter are submitted pursuant to Decision No. (D.) 10-04-031 in Application No. 08-09-008, and General Order 96-B, Water Industry Rule 7.3.1(1), to amortize the \$1,432,005 undercollection in the Water Revenue Adjustment Mechanism ("WRAM") Balancing Account as of October 31, 2014, through a temporary 12-month surcharge of \$3.13 per residential customer, per month, served under Schedule LA-1C. The surcharge will increase annual adopted revenues from \$65,916,558 to \$67,348,563 or 2.2%. D.10-04-031 established the WRAM and provides for amortization of the balance in that account. Ordering Paragraph 4(d) states:

*(d) If the water revenue adjustment mechanism over- or under-collection for either ratemaking division exceeds 2% of that area's total authorized revenue requirement for the preceding calendar year, a tier 1 advice letter shall be filed within 30 days by San Gabriel Valley Water Company that requests amortization of the balance in the*

*account, which applies only to the residential class of customers. If the percentage is 2 or less, San Gabriel Water Company shall propose amortizing in the next General Rate Case.*

In accordance with the above ordering paragraph and Water Industry Rule 7.3.1(1), **this filing is designated as Tier 1 and does not require a resolution.** The enclosed tariff schedules will become effective immediately.

### **Background**

The current rate schedules in this division became effective on November 1, 2014 through Advice Letter No. 447.

D.10-04-031, dated April 8, 2010, in A.08-09-008 adopted conservation rates and authorized a Monterey style WRAM balancing account to record variances in Quantity Rate revenues from those that would have been billed under a single block Quantity Rate. The \$1,432,005 undercollection in that account exceeds 2% of the authorized \$64,739,867 revenue requirement for the preceding calendar year.

San Gabriel has furnished the Commission's Division of Water and Audits staff workpapers providing detailed support for the proposed surcharge. San Gabriel is proposing a per customer surcharge, applicable only to its residential customers, rather than a per Ccf surcharge because the use of outdated sales forecast would not provide for full amortization of the undercollected recorded balance. These workpapers show the computation of a surcharge of \$3.13 per residential customer, per month for twelve-months beginning on the effective date of this advice letter. The new rates submitted with this advice letter raise the monthly bill of the typical residential customer using 14 Ccf under Schedule LA-1C with a 5/8" x 3/4" meter by \$3.13 or 5.5% from \$57.40 to \$60.53.

The matters addressed in this advice letter are not now the subject of any formal filings including a formal complaint, nor action in any court of law.

### **Service and Notice**

In accordance with General Rule 4.2 of General Order 96-B, San Gabriel will give its customers, at least 30 days' notice before the effective date of this advice letter, notice of the increase by bill insert (a draft of which is attached hereto). No other parties have requested notification of tariff filings.

Distribution of this Advice Letter is being made to the attached service lists in accordance with Water Industry Rule 4.1 of General Order 96-B. In accordance with Water Industry Rule 3.3 of General Order 96-B, San Gabriel will also post this advice letter on its website at [www.sgvwater.com](http://www.sgvwater.com).

### **Protest and Responses**

Anyone may respond to or protest this advice letter. A response supports the filing and may contain information that proves useful to the Commission in evaluating the advice letter. A protest objects to the advice letter in whole or in part and must set forth the specific grounds on which it is based. These grounds are:

- (1) San Gabriel did not properly serve or give notice of the advice letter;
- (2) The relief requested in the advice letter would violate statute or Commission order, or is not authorized by statute or Commission order on which San Gabriel relies;
- (3) The analysis, calculations, or data in the advice letter contain material error or omissions;
- (4) The relief requested in the advice letter is pending before the Commission in a formal proceeding; or
- (5) The relief requested in the advice letter requires consideration in a formal hearing, or is otherwise inappropriate for the advice letter process; or
- (6) The relief requested in the advice letter is unjust, unreasonable, or discriminatory, provided that such a protest may not be made where it would require re-litigating a prior order of the Commission.

A protest shall provide citations or proofs where available to allow staff to properly consider the protest.

**NOTICE OF TEMPORARY RATE INCREASE  
BEFORE THE  
CALIFORNIA PUBLIC UTILITIES COMMISSION  
Advice Letter 450**

San Gabriel Valley Water Company ("the Company") submitted Advice Letter 450 to the California Public Utilities Commission (Commission) on November 26, 2014 to implement a twelve-month surcharge to increase its revenues from quantity rates by \$1,432,005 or 2.2% to amortize the undercollection in the Water Revenue Adjustment Mechanism ("WRAM") Balancing Account as of October 31, 2014 in accordance with General Order 96-B, Water Industry Rule 7.3.3(7). The proposed temporary surcharge of \$3.13 per month will be charged for twelve-months to residential customers billed under tiered rates. The Company seeks the Commission's authority to implement this twelve-month surcharge and new rates would become effective upon the Commission approval. **The revenue increase will reimburse the Company for recorded uncollected revenue, but not increase profits.**

The impact of this proposed increase will raise the monthly water bill of the typical residential customer using 14 Ccf under Schedule LA-1C with a 5/8" x 3/4" meter by \$3.13 or 5.5% from \$57.40 to \$60.53. The company has submitted its supporting workpapers to the Commission staff for review and verification.
